

THE IDEAL WEEK IN RETIREMENT

When you imagine life after retirement, what do you see? Do you picture yourself on a beach somewhere, relaxing without a care in the world? Do you imagine yourself spending more time with your family? Or pursuing activities you didn't have time for a while you were working?

No matter what you envision yourself doing, keep one thing in mind: There are 24 hours in a day, 7 days in a week, and 52 weeks in a year. That's a lot of time to fill. What will you do that will be as fulfilling as your job once was? Perhaps we can help. We've greatly enjoyed managing your money; please let us help manage your time.

You may find it useful to start thinking about time management in retirement by completing this hypothetical schedule. It may help you gain some perspective on how you will occupy yourself during this next phase of your life.
